THE DAILY PATTERN

A GOOD APRON MODEL.

Ladies' Apron With Panel Front. This design is a very good pattern, i. e., the deep convenient pockets and the panel front, which is cut high over the bust, and this affords good protection. The apron is easy to make and will give satisfaction with its ample skirt and natty appearance. Good, lawn or cambric may be used for its development. It requires six and one-fourth yards of twenty-seven-inch material for the medium size. The pattern is cut in three sizes, small, medium and large.

A pattern of this illustration mailed to any address on receipt of ten cents in silver or stamps.

Strict Economy for Years

Has often been necessary in order to purchase what has now become a household necessity, viz., a good sewing machine.

We offer you a Triumph sewing machine, which is as good as sewing machine as is made in America today, for none. Through our club plan, only \$1 is necessary to own this machine immediately, then \$1 per week until fully paid for. Please do not confuse this offer with the ordinary installment proposition, for it has no relation to it. The machine itself will do anything that any other make of machine will. We know this positively, else we would never in the world put it out with a ten-year guarantee, which we unhesitatingly do. These machines are known the world over by a different name and sell at about twice our price.
